INTRODUCTION

Heartlands Marble has once again combined the most stunning materials and designs to bring you the very best fireplaces for the contemporary and traditional homes of today.

Only the finest raw materials have been used to create our latest range of marble and limestone fireplaces. Wherever possible, these materials are procured from European and environmentally friendly sources to ensure quality without excessive damage to the earth and climate change.

Each fireplace is carefully crafted using a combination of computerised CNC machinery and traditional hand finishing by highly skilled stonemasons in our workshops in Birmingham, West Midlands.

This year, we have developed a number of new and interesting designs to choose from, with lots of optional features so that you can create the perfect fireplace for your home. We are excited to introduce new fireplaces, elegant electric suites, and the incorporation of porcelain in our stove hearth, chamber, and beam pictures. Unlike cheaper and poorer quality imported varieties, the majority of our fireplaces can also be made to measure. Details of this bespoke service can be obtained from your retailer.

SUTTON

The Sutton Fireplace offers a simple and clean floating design, perfect for complementing smaller electric fires. Featuring a deep shelf and a floating hearth, complemented by side pieces that frame the fire, it combines functionality with modern aesthetics.

Designed to enhance contemporary interiors, the Sutton Fireplace provides a minimalist backdrop that highlights the elegance of smaller electric fires. Its sleek lines and thoughtful proportions make it an ideal choice for creating a stylish focal point in any living space.

- Shown here in Nacarado
- Only available in Nacarado, Blanco Micro, Petra Lioz and Petra Titanium
- Shown with British Fires 870 but can be made to suit a wide range of electric fires

VENICE

The Venice has an Italian influence on the overall design, with deep shaped and double profiled curves around the marble body and fire opening. The horizontal hearth also has a grey marble inlay to complement the vertical profile and recess on the body and fire opening. In this way the contrasting Bering grey material creates a subtle contrast with the Blanco white marble.

- Shown here in Spanish Blanco Micro Marble & Italian Bering Micro Marble
- Available 48" & 54"
- Available in all Micro Marble Colours
- Optional Downlights
- Available Made to Measure, including hearth size to suit carpet cut outs
- Suitable for Gas & Electric

ROWTON

The Rowton is an elegant marble fireplace with echoes of Regency styling. The fireplace has a deep polished chamfer to the underside shelf, a small shelf below the frieze and above the leg pillars and a stepped profile around the fire opening. We have created this fireplace in Italian Polare white marble with a contrasting polished black granite hearth and panel. The latter can be made in a matching Polare marble hearth and panel to suit your individual taste and home interior colour scheme.

- Shown here in Italian Polare White Micro Marble
- Available 48" & 54"
- Available in all Micro Marble Colours
- Optional Downlights

- Available in all Micro Marble Colours
- Optional Downlights
- Available Made to Measure, including hearth size to suit carpet cut outs
- Suitable for Gas & Electric

CORBEL

A fireplace collection cannot be complete without a traditional corbel design. Here we use a softened demi bull-nose edging to the shelf and shelving mounts. The feature corbels are also highly polished with softened edges to create an even balanced feel. The fireplace is displayed here in a Spanish Nacarado micro marble – the design can also be created in other natural materials to suit your personal taste. Pictured here with a Gazco Logic Convector gas fire with Box Profil2 trim and Chartwell brass effect fret, the surround can also be supplied with a number of gas and electric fires to suit your home.

BEAM, STOVE HEARTH AND CHAMBER

Traditionally, Beam, Stove Hearth, and Chamber products have been limited to wood or granite finishes, which can restrict design choices. Recognising this, we have introduced a versatile alternative using porcelain.

Porcelain is not only aesthetically flexible but also highly heat resistant, making it an ideal choice for use with stoves. This innovative material offers a broad range of colours, patterns, and textures, allowing for a customised and contemporary fireplace design.

Shown here in four of the porcelain colours—Berici Beige, Capraia, Silver Root, and Breccia Imperiale—each adding its own distinct charm and sophistication to the fireplace setup. With many more colours available, porcelain offers a modern and durable solution that enhances both the visual appeal and functionality of your fireplace.

KENSINGTON

The Kensington Limestone Fireplace, shown here in Crema Bella limestone with a Brushed Steel Granite stove hearth, combines classic elegance with contemporary design. Its striking double shelf adds a sophisticated touch, while the boots at the bottom of the legs provide a distinctive, refined detail. The concave profile around the opening enhances the fireplace's depth and visual appeal, making it a standout feature in any room.

- Shown here in Crema Bella Limestone and Brushed Steel Granite Stove Hearth
